Experience
Xiaomi HyperOS 2

*The unibody metal design refers specifically to the back cover of the product and does not include the camera deco, buttons, card slots, or other components.
*Redmi Pad 2 screen size is about 11 inches when measured diagonally. Viewable area is smaller due to the curved corners. Measurements between individual products may vary.
*Refresh rate can be adjusted to up to 90Hz for supported apps and games. Please refer to the actual experience.
*Available storage and RAM are less than the total memory due to storage of operating system and software pre-installed on the device.
*Please consult the local seller on the availability of the power adapter in the box.
*Availability of Xiaomi HyperOS features, apps and services may vary depending on software version and product model.
*Wi-Fi 5 capability may vary based on regional availability and local network support.
*Wi-Fi connectivity (including Wi-Fi frequency bands, Wi-Fi standards and other features as ratified in IEEE Standard 802.11 specifications) may vary based on regional availability and local network support. The function may be added via OTA when and where applicable.
*Accessories sold separately, availability may vary by regions.
*Redmi Smart Pen with the "Redmi" logo (not "REDMI") can only be connected and used with Redmi Pad 2 after Redmi Pad 2 has been upgraded via OTA.
