AI Smart Cleaning

- AI visual recognition algorithm + RGB camera + 2 x IR cameras + Fractional laser
- AI dirt recognition, automatic execution of different cleaning strategies for dry and wet garbage
- AI object recognition, identify 200 kinds of obstacles, and not get stuck

Maintenance-free Design

- Upgrade the main brush with double cutter head and anti-tangle edge brush
- Smart carpet cleaning strategy with four cleaning modes
- Mop dirt detection, intelligent rewashing is cleaner
- The base has double scraping arms, self-cleaning
- Wash the mop with hot water up to 80°C to quickly dissolve stains, hot air drying mop

Deep Clean, no Dead Space Coverage

- Intelligent lifting radar, 8.8cm ultra-thin body, deep into low space
- Expandable mop cloth and side, 100% coverage of wall edges and corners
- 20000Pa powerful suction fan blower
- The main brush and mop are double-lifted, and the dry and wet are separated and cleaned

Your Virtual Home

- High-definition video, one-way video call, real-time view of pet status
- Support APP control allow users customize cleaning experiences
- Support Google & Alexa

Xiaomi Robot Vacuum 5Pro

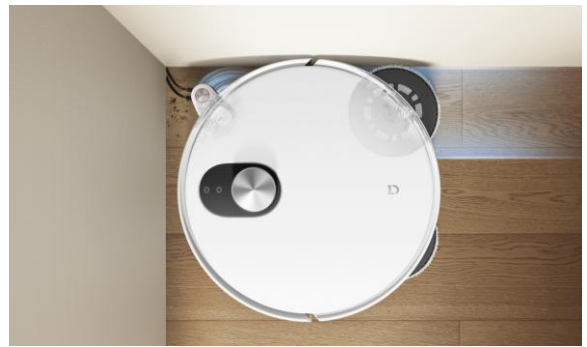

AI Three Camera Intelligent System achieves dirt identification. 200 kinds of obstacle recognition, higher obstacle avoidance rate

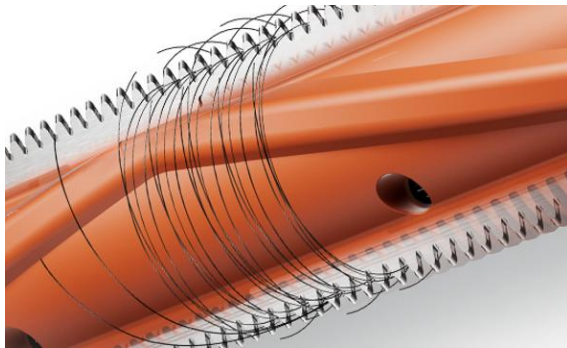

20000Pa strongest Xiaomi suction

Raise and lower LDS and clean deep into low spaces

Expandable double robotic arm, cleaner welt. Liftable main brush, mop. Smart Cleaning Strategy

Double-knife cutting main brush, anti-winding side brush, reduce hair entanglement

Self-cleaning & maintenance-free station tray. Mop dirt detection, intelligent rewashing

Wash the mop with hot water at up to 80°C, and dry it with hot air for as soon as 2 hours

**HD video, one-way calls
smart voice control / APP control**

Xiaomi Robot Vacuum 5Pro

Specification

Navigation System	Lifting D-ToF LDS
Obstacle avoidance	AI+Binocular 3D active obstacle avoidance
All-in-one Dimensions	470*360*572mm
Main Unit Dimensions	Φ350 x 88mm
Mopping	Dual mopping
Auto Mop Washing	Hot water
Auto Dust Emptying	√
Auto-lifting mop pads	15mm
Adjustable main brush	Can be raised to flush with the chassis
Obstacle crossing height	2cm
Air drying	Hot Air
Battery	5200mAh
Powerful suction fan blower	20000Pa
Dust box capacity of sweeper	290mL
Water capacity of sweeper	80mL
Fresh/Dirty Water Tank	4L / 4L
Disposable Dust Bag	2.5L
APP	Track Cleaning Progress Selected Room Cleaning Zoned cleaning Virtual Wall Multi-floor Maps 4 cleaning modes Smart 3D maps
Google/Alexa	√
HD one-way video calls	√
